

# LIFE BOAT BAGS TEST SYSTEM

**PROOFLOAD®**

The Lifeboat Bag Test System has a capacity of 6.3 Metric Ton and is a safe and easy to use system for load testing of Lifeboats. The system can also be used for the testing of Crew baskets, gangways or other lifting Equipment. The safety advantage of the system is that it eliminates the need of entering the Lifeboat Capsule during an overload test.

**The System is self supporting and only requires Water and Air supply.**

The Lifeboat Bag Test System contains out of:

- 18 Life Boat Bags of 350 Kg
- 1 Manifold for filling and emptying bags
- 1 Air driven pump for emptying bags
- Set of 10 hoses for filling emptying bags
- 2 storage containers

Available sizes:

	<u>Length</u>	<u>Diameter</u>
140 kg	200 cm	30 cm
200 kg	116 cm	47 cm
350 kg	200 cm	47 cm
1000 kg	600 cm	47 cm

Sizes and dimensions may change without notice
